Refer to section 13 of the safety data sheet for disposal of rinse water.  
Emptied containers retain vapour and product residue.  
**FOLLOW LABELLED WARNINGS EVEN AFTER CONTAINER IS EMPTIED.**

## 7.2. Conditions for safe storage

Minimum storage temperature: -15 °C  
Maximum storage temperature: 50 °C  
Compatible materials for storage: stainless steel, fibreglass, plastic, glass lining  
Keep out of reach of children.  
Keep away from food, drink and animal feed.  
Keep container tightly closed in a cool, well-ventilated place.  
Keep only in the original container.  
Minimum shelf life: 2 years.  
This formulation can be stored for 2 to 3 weeks at temperatures colder than -20°C without impact. If the temperature remains below -20°C for longer the water phase of the formulation may freeze. Should this occur allow the product to warm and it will return to its original homogeneous state. We recommend that customers follow the typical use instructions which state that the container should be agitated (shaken) prior to pouring.  
If frozen, place in warm room and shake frequently to put back into solution.
